**PodgyPetsClub**  
Keeping Your Pets Healthy

Here at Powis & Partners, as part of our ongoing commitment to provide the best care for you and your pets, we are proud to announce the launch of our **Podgy Pets Club**. Pet obesity is a growing problem for our pets and we are seeing more and more problems caused by this. Conditions such as diabetes, arthritis, other joint problems, heart and respiratory problems can all be easily avoided by keeping our pets nice and slim. Check out our web site [www.powisvets.co.uk](http://www.powisvets.co.uk) for more details or telephone for a consultation.

## Has Spring Sprung?

With the mild winter we have experienced and warmer weather ahead, it is a great time for those pesky fleas to put in an appearance.

At Powis and Partners, we want to make preventative health care easy and affordable to help give your pets the best care possible. We believe that prevention is better than cure, rather than waiting until a pet is ill and suffering to put things right. **Our Pet Club** covers the essential treatments your pet needs throughout life, such as vaccinations, flea and worm treatments, and regular health checks.

Please ask for details when you next visit us or email: [practicemanager@powisvets.co.uk](mailto:practicemanager@powisvets.co.uk) for more details. The plan is a way of spreading the cost, saving money and providing important preventative care for your pet all year round.
